## ARCHITECTURAL CONSULTING, LLC

**Company Profile**

### Thomas Sean McMennamin – Owner, Architect

With over 22 years in the profession, I have created McTom Architectural Consulting, to serve the architectural community by utilizing my expertise on a consulting basis. I am available to provide any service a project architect does, from basic drafting to complete construction document creation, shop drawing review, and construction administration. My office runs the latest version of AutoCad, and I can function as that extra architect you need, without the hassle of hiring one and having to provide benefits and work space.
